## UNeMed Corporation announces partnership with Bio-Investigations Ltd.

Omaha, Neb., April 2010 - UNeMed Corporation, the technology transfer leader for the University of Nebraska Medical Center, announced today a new partnership with Bio-Investigations Ltd. to identify commercial partners for novel discoveries related to the detection and treatment of a variety of human cancers. Specifically, UNeMed and Bio-Investigations Ltd. will seek to commercialize a variety of technologies from the laboratory of Dr. Surinder Batra, Ph.D. Under the terms of the Agreement, Bio-Investigations Ltd. will utilize its position in the diagnostic and therapeutic fields to develop commercial partnerships that will advance Dr. Batra's innovative work in the detection and treatment of a variety of cancers.

Dr. Batra, Chairman and Professor, Biochemistry and Molecular Biology and the Distinguished Helen Freytag Professor of Cancer Biology, is a Distinguished Scientist at the University of Nebraska Medical Center, and a recognized expert in cancer. A renowned educator, he is the Associate Director for Education and Training at the Eppley Cancer Institute and a 2010 recipient of the Outstanding Mentor of Graduate Students Award. Dr. Batra has published widely on the progressions of several different kinds of cancer.

As Nebraska's only public academic health sciences center, the University of Nebraska Medical Center is committed to the education of a 21st century health care work force, to finding cures and treatments for devastating diseases, to providing the best care for patients, and to serving our state and its communities through award-winning outreach. UNMC's research funding from external sources now exceeds \$82 million annually and UNMC's physician practice group, UNMC Physicians, includes 513 physicians in 50 specialties and subspecialties who practice primarily in The Nebraska Medical Center. For more information, go to UNMC's Web site at <http://www.unmc.edu/>.

UNeMed is a for-profit technology transfer firm that provides technology transfer services for the University of Nebraska Medical Center. UNeMed is dedicated to bringing innovation at all stages of development to industry, in a wide variety of fields. For more exciting technologies please visit [www.UNeMed.com](http://www.UNeMed.com).

A venture capital firm heavily focused in the fields of human, veterinary, and agricultural health care, Bio-Investigations Ltd. maintains relationships with universities and corporations worldwide. The firm often takes positions in innovative technologies in the form of exclusive options or worldwide licenses.
